HPV (Human papillomavirus) By the Numbers

Every year, approximately

19,400 women and

12,100 men are affected by cancers caused by HPV.

HPV can cause many types of cancer...

And while there are a lot of strains of HPV, a few are particularly notorious.

It's NOT too late!

The HPV vaccine targets some of the most harmful strains.

Save lives and protect your health with the HPV vaccine today!

So talk to your doctor about the HPV vaccine today!
