

**Directions:** Use this worksheet to take notes while you participate in the *Knowing the Law: Laws and Policies Related to Sex Ed* online module. You may also print relevant resources you find during your research.

### **District Policies and State Laws and Policies**

I looked up the official school district policies and state laws and policies for sexual health/family life/HIV education and they say:

My district and/or state has policies that restrict what I can talk about when teaching about these topics:

Yes

No

Unsure, but will find out more

*Record notes about what your district and/or state policies say about teaching on these topics:*

### **Sexual Behavior and Activity**

In my state the age of consent is:

In my area the laws regarding sexting (sending sexually explicit text messages, often with photos) are:

### **Access to Products and Services**

Adolescents in my area can access confidential contraceptive services at age:

**Confidential:** Services or record keeping that ensures privacy.

Related to sexual health services this means services and records are kept private from parents or guardians as well.

## ***Knowing the Law***

### *Laws and Policies Related to Teaching Sex Ed*

#### *Participant Worksheet*

Adolescents in my area can access confidential STI and HIV testing and treatment at age:

In my area, teens can access emergency contraception under these conditions:

In my area, teens can access abortion if:

### **Protection Based on Gender Identity and Sexual Orientation**

Title IX protects students' access to equal opportunities in sports. It also guarantees equal access to educational opportunities for:

In case of a question or complaint, the Title IX coordinator in my school/district is:

My state has the following laws related to hate crimes designed to protect sexual orientation and gender identity:
