

your pics, your stories

Have you been in foster care? Are you parenting a child during COVID-19?

If you are 18 to 26 years-old, currently parenting a child, and were in foster care around age 17, or have "aged-out" of foster care. We want to hear from you!

Now enrolling for a new research project to better understand the needs of young parents during times of COVID-19.

There are many ways you can participate virtually from the comfort of your home.

A compensation of \$50 or \$95 will be provided depending on how you decide to participate.
